

**The Motivators
Assessment**

What **motivates** you?

Most people know their personality and their strengths. But what about their motivators? FindMojo's Motivators Assessment will show you what's most important to you right now and what you can do about it.

The Motivators Assessment is the world's most extensive and scientific assessment to help individuals identify their unique blend of core motivators, enabling them to align their passions with more of what they love at work and less of what frustrates them.

Created from the results of workplace surveys with more than 1 million people around the globe, The Motivators Assessment comprises **23 workplace motivators** and 5 clusters of motivators, known as **identities**.

In addition to helping individuals discover their motivators, it also helps managers and leaders better understand the diverse blend of motivational identities within their teams.

// In my 15+ years of leadership, I've taken many different leadership assessments, which all identified my strengths and potential, but none which truly identified me, who I am, and what I want to do. The Motivators Assessment presents a truly different perspective of me and my leadership skills and abilities.

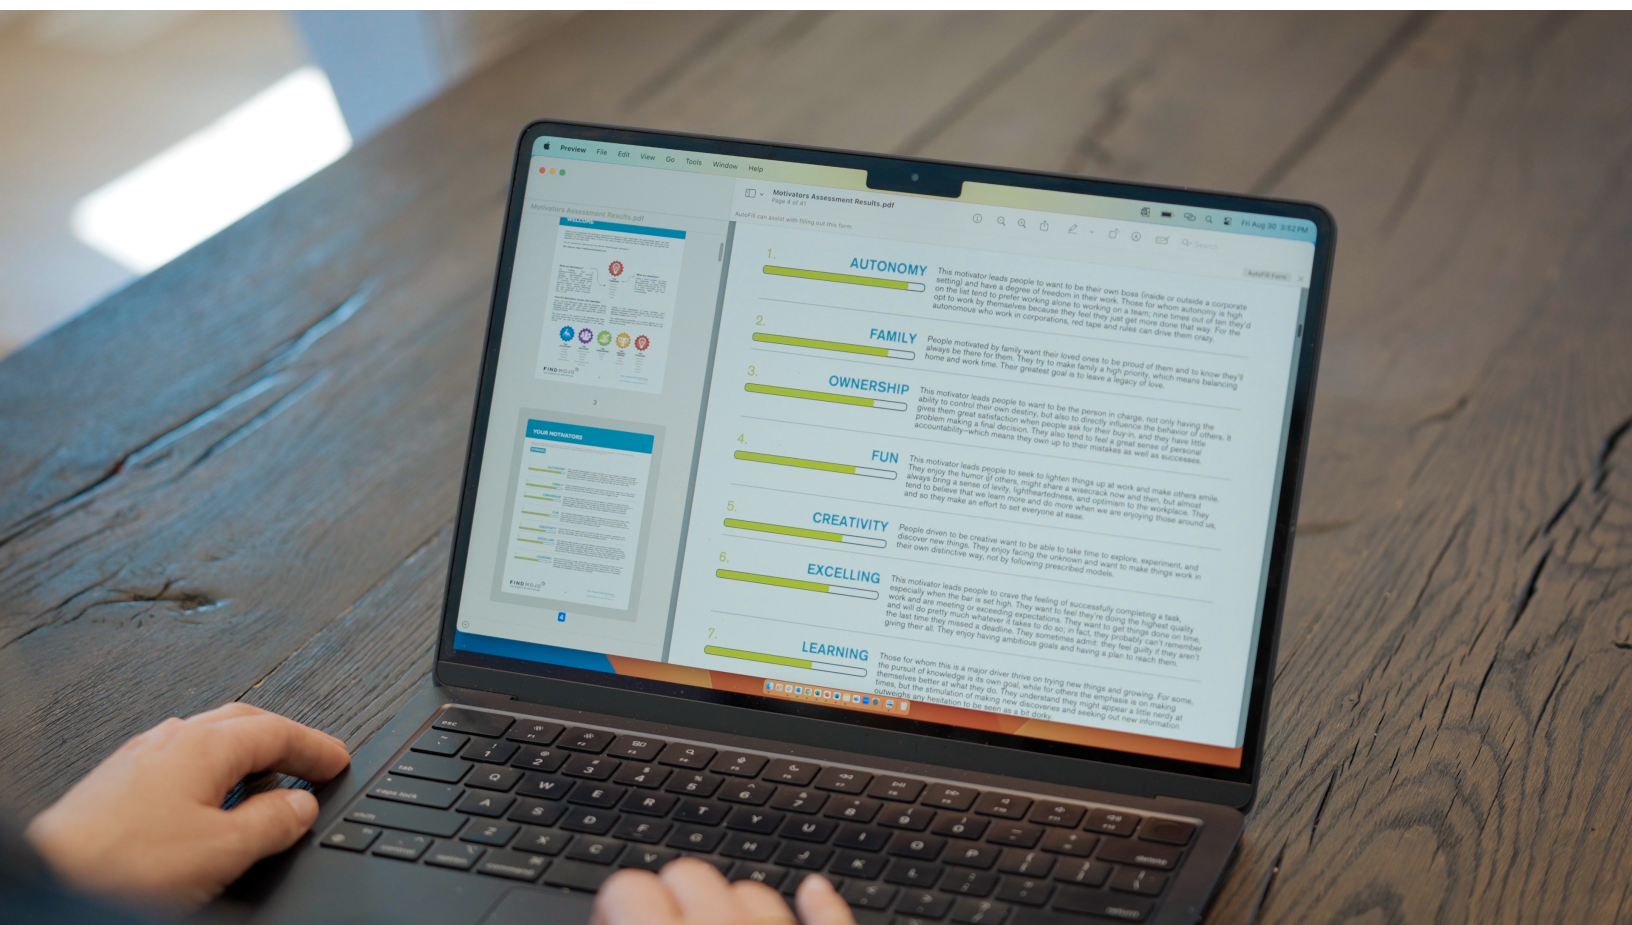

– Benjamin Fetterman
SVP of Retail Banking, Bankwell

23 Motivators

Motivators are unique, fundamental drivers that all human beings share in common. There are 23 common workplace motivators (core drivers) which are all positive concepts.

5 Identities

Motivators cluster together into 5 different identities. These are archetypes and each of us will inevitably tend to have stronger associations with some of these types over others.

100 scientifically valid questions

Detailed, 40+ page report with personalized insights

Takes only 15 minutes to complete
